Who We Are

LOVERABBIT Manufacturing Co., Ltd. was established in 2022 in Hunan Province, China. We operate an 8,000 sqm production facility with 12 dedicated sewing lines and a team of 365 skilled employees — producing over 15,000,000 garments per year.

UNIWORKWEAR is our international export brand — purpose-built to serve global B2B buyers: distributors, procurement teams, importers, and corporate clients. We supply to Europe, USA, Middle East, Africa, and Australasia with MOQ from just 50 pieces.

01

QUALITY FIRST

Every reorder matches your approved sample. Strict in-process and pre-shipment QC — guaranteed consistency on every production run.

02

FACTORY DIRECT

No intermediaries. Deal directly with the manufacturer for better pricing, faster decisions, and complete production transparency.

03

GLOBAL REACH

Active export to Europe, USA, Middle East, Africa, and Australasia. Full documentation, freight coordination, and export support.

CORPORATE CULTURE

Our Values & Principles

◆ CORE VALUE

Love first. Gratitude and dedication are the founding principles of LOVERABBIT. Every garment carries the spirit of quality craftsmanship — built with care, manufactured with precision, delivered with integrity.

◆ BRAND PHILOSOPHY

Truth · Goodness · Beauty. Workwear should be honest in quality, good for the wearer, and beautiful in design. These three principles guide every product we develop and every relationship we build.

◆ PRODUCT CHARACTER

Premium Quality · Superior Design · Competitive Value. We manufacture garments that exceed expectations across all three dimensions — ensuring buyers get maximum value with every single order.

◆ DESIGN PHILOSOPHY

Culture-led. Aesthetics-first. Classic craftsmanship reimaged with modern function. Human-centred design. Continuously refined to meet the evolving needs of professional workwear buyers worldwide.

DEVELOPMENT HISTORY

Company Milestones

2022	FOUNDED	LOVERABBIT Manufacturing established in Hunan, China. Production facility launched at Yuxu Industrial Park. First international export orders shipped successfully.

CUSTOMISATION & OEM/ODM

Your Brand. Our Production.

Every garment we produce can carry your branding. From logo application and colour matching to full private-label OEM programs — we give you the tools to build a uniform range that is entirely yours.

■ LOGO EMBROIDERY

High stitch-count embroidery on chest, sleeve, back, and collar. Multi-colour, wash-fast, durable. Ideal for corporate and team uniforms.

■ SCREEN PRINTING

Multi-colour prints with plastisol, water-based, and discharge inks. Complex artwork on front, back, and sleeves with excellent colour durability.

■ HEAT TRANSFER

Full-colour and photographic logos. Reflective heat transfer available. Compatible with synthetic and cotton blend fabrics.

■ SUBLIMATION PRINTING

All-over or panel sublimation for polyester garments. Vivid, edge-to-edge colour programs and fully custom-patterned uniform designs.

■ WOVEN LABELS

Custom neck labels, care labels, size tabs, and brand heat seals. Complete private-label branding from collar to retail packaging.

■ COLOUR MATCHING

Pantone-referenced fabric dyeing with lab-dip approval step for critical programs. Consistent colour matching across all product categories.

■ TRIM & ACCESSORIES

Branded zips, buttons, cord pulls, and reflective tape. Custom polybags, hang tags, and carton labeling for complete private-label programs.

■ SIZE RANGE

XS to 5XL standard. Women's, slim, regular, and relaxed fit options. Custom size blocks from buyer-supplied fit samples always accepted.

OEM · ODM · PRIVATE LABEL

OEM MANUFACTURING

You provide the design, tech pack, or reference sample. We manufacture to your exact specification and deliver under your brand label with full QC assurance at every stage.

ODM DEVELOPMENT

You provide a brief or concept. Our development team designs and samples new styles for your approval. No in-house design team needed — we handle everything end to end.

PRIVATE LABEL SUPPLY

Finished garments manufactured under your brand — custom neck labels, hang tags, care instructions, and retail-ready packaging all fully supported and included.

QUALITY CONTROL

Every Unit. Every Order.

Quality control is built into every stage of our production — from incoming fabric inspection through to pre-shipment AQL verification on every completed order before it leaves our facility.

01	INCOMING FABRIC INSPECTION	All fabric and trims inspected against approved specs — weight, colour, shrinkage, construction — before any cutting begins. Non-conforming materials rejected immediately.
02	IN-PROCESS CHECKS	QC performed at defined intervals during sewing and assembly. Stitching tension, seam allowances, pocket placement, and construction details verified on the line.
03	DECORATION QUALITY CHECK	Embroidery placement, stitch count, and thread tension checked against the approved sample. Print opacity, registration, and adhesion verified before garments advance.
04	MEASUREMENT AUDIT	Full measurement check against the approved spec sheet. Each size run verified for key dimensions — chest, length, sleeve, waist, and inseam as applicable per category.
05	PRE-SHIPMENT AQL INSPECTION	AQL 2.5 (General Inspection Level II) final inspection on all completed orders. Full QC report with defect classification, measurements, and photo evidence before packing.
06	SPEC LOCK GUARANTEE	Your approved sample is the permanent master reference. Fabric, construction, and branding specs held on file for the life of your program. No re-sampling ever required on reorders.

FROM BRIEF TO DELIVERY

1	BRIEF & QUOTE	2-3 days
2	SAMPLE DEVELOPMENT	7-14 days
3	SAMPLE REVISION	3-5 days/round
4	SPEC LOCK	On approval
5	BULK PRODUCTION	30-60 days
